

CrowdStrike Integration - using API

Steps to Get Client ID and Client Secret in CrowdStrike Falcon

1. Log in to the Falcon Console

- Go to: <https://falcon.crowdstrike.com>
- Use your admin credentials to log in.

2. Navigate to API Clients and Keys

- Click on the "**Support**" (question mark icon) or your **User avatar** on the top right.
- Select "**API Clients and Keys**" from the dropdown.

Alternatively, go to: `https://falcon.crowdstrike.com/support/api-clients-and-keys`

3. Create a New API Client

- Click on "**Add new API client**".
- **Name** your client and optionally add a **description**.
- Under **API Scopes**, select the required **permissions** based on what you need (e.g., read access to Hosts, Alerts, IOCs, etc.).

Data Stream	Scope
Intel	read:intel
IOC	read:iocs
	read:ioc-management
Alert	read:alert
Host	read:host

- Click "**Save**".

Please provide to AQUILA support team.

1. Copy the Client ID and Client Secret

- After saving, the **Client ID** and **Client Secret** will be displayed **once**.
- Copy them immediately and store them securely (e.g., in a password manager or secrets vault).

2. Token url
